# **Microdata Telecom Announces the Acquisition of Filtronic Wireless AB, Sweden**

Microdata Telecom, the Swedish supplier of high-quality RF Conditioning and PIM Test & Measurement solutions, today announces that it has signed an agreement to acquire Filtronic Wireless AB from Filtronic Holdings UK Ltd. (A wholly owned subsidiary of Filtronic PLC).

The acquisition will be completed on January 2<sup>nd</sup> 2020.

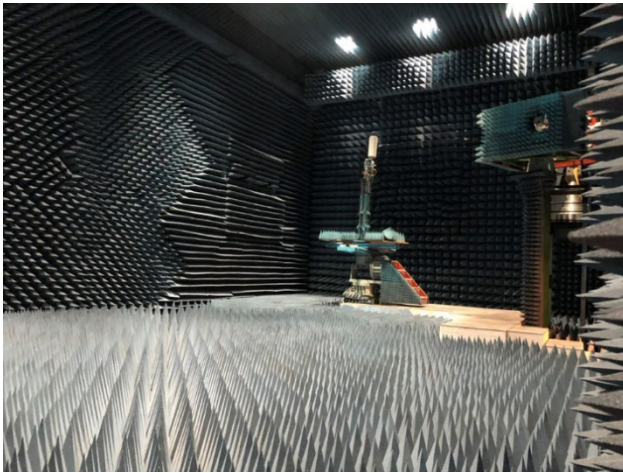

Filtronic Wireless AB's design center in Stockholm, Sweden and its antenna team have a well-respected reputation for producing innovative, high-performance and high-quality products throughout their experiences within LGP Allgon and now Filtronic Wireless AB.

"With the combination of Microdata Telecom products and competence within front-end solutions and the antenna competence and portfolio from Filtronic Wireless AB we will be able to offer advanced antenna solutions for the 5G era," says Martin Lundhagen, CTO of Microdata Telecom.

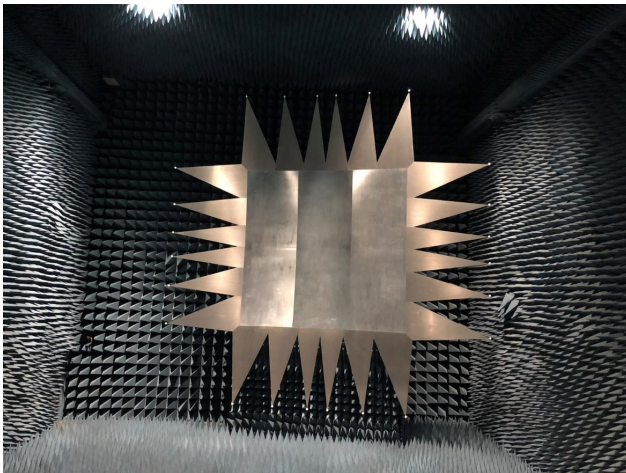

"The addition of Filtronic Wireless talent and technologies will enable us to provide our customers with advanced RF communication solutions with excellent PIM Performance. This combination provides for significant growth opportunities in the coming years", says Peter Sandberg, Chief Executive Officer of Microdata Telecom.
