

IAK-0140A

IXA SOFT CASE ACCESSORY KIT

Reach maximum efficiency and safety in your test environment by using the Kaelus iXA* 2-port PIM Test Analyser with integrated Range to Fault (RTF) Technology. This accessory kit includes all necessary components required to perform a system check of the iXA and perform PIM testing.

The iAK soft case accessory kit completes your Kaelus PIM testing solution for use in any test environment from the top of the tower, the base of the tower, rooftop, in-building for DAS systems. In addition, the backpack is rugged enough for complete protection of the iXA components during transport or on-site testing.

*iXA sold separately.

FEATURES

- High Capacity Battery
- PIM source and Low PIM Load
- Rugged and portable
