

OUTDOOR CASE FOR 3500MHZ PIM TESTERS

Turn your iBA-350xC into a portable PIM tester for field use! Equipped with internal shock absorbers, this outdoor case will protect your iBA-350xC from shocks up to 50G. Rated to IP54 ingress protection, the iBA350xC is well protected from the weather. It is equipped with castor wheels and allows you to transport your iBA-350xC with ease. With this case, you can confidently transport your iBA-350xC to any remote location and quickly set up the equipment: simply remove the front and back cover, connect it to AC power, and perform PIM measurements. Purchase separately or with an IBA-350xC, we will fit it for you!

FEATURES

- Easy set up
- Equipped with castor wheels and handles
- Convenient storage of the AC and RF cables in the back cover.
- Internal shock absorber protects the iBA-350xC
- Ingress Protection IP54
